Dear Hon. Minister Mustapha,

How are you my friend?

Thank you for the list you sent to me.

Now we would like to recognise the middlemen on whose names the licenses were issued.

Ask the fishermen to mail a copy of the licenses of 2020 to my Director of Fisheries Mrs. Parveen Amritpersad who is also included in this mail.

With that it will be easier for us to trace the middlemen.

These middlemen have registered the boats on their own names in the Fisheries Register at our Maritime Authority. We will have to get it changed.

To be able to find solutions I suggest the following actions to be taken due to the regulations within our Fisheries Acts en License Conditions:

1. The fishermen will have to register the vessels soon on their own names.
2. I will appoint a Government owned Company to be their business partner overhere and get them signed a Vesselbasing Agreement.
3. This Company will take care of the further registration of the vessels overhere and also take care of the licences by which your fishermen will pay just the normal fees.
4. This Company will also sign the purchase- and other agreements needed with your fishermen.

Starting from 1st January we will issue the fishing licences for 2021.

Let we try to have the preparationwork done within the next 2 weeks.

Kind Regards,

P. Sewdien
